- ▶ THE CONCEPT OF GOING TO A WORKPLACE

#choicescaribbean

**“Work” used to be
considered a place.**

Call centers used to be massive offices built in rural areas or countries like India.

Tools like Skype have made
long-distance calling
virtually free.

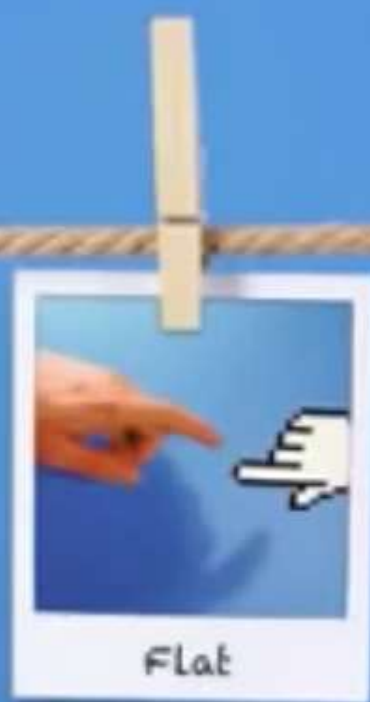

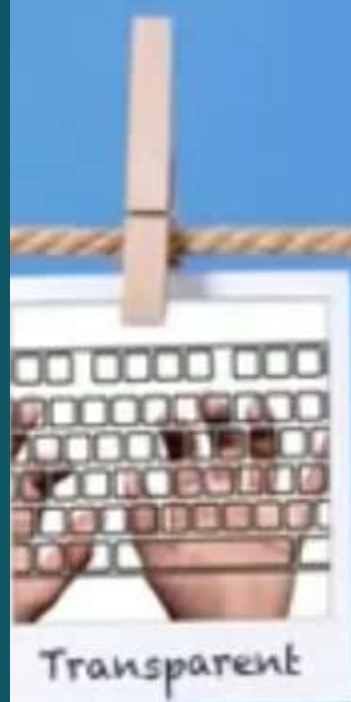

**In the future,
location will not matter.**

**Today, project teams use amazing web tools
to work together from
anywhere in the world.**

in the future of work...

**Individuals will have
more freedom and power
than ever before.**

**No one is going to pay you
just for having a degree.**

No one is going to
guarantee you
a lifetime career.

To stay employed in the
workplace of the future
you need to
stand out.
